PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 4+ years of experience designing and developing scalable, high-performance web applications using React.js, Next.js, and TypeScript. Strong expertise in frontend architecture, state management, API integration, performance optimization, and advanced UI animations using GSAP, including sequence animations and SVG path animations. Proven ability to collaborate with cross-functional teams and deliver production-ready SaaS solutions in Agile environments.

ACADEMIC DETAILS

Shri Madhwa Vadiraja Institute of Technology and Management

St Mary's PU College

Holy Rosary High School

B.E. — 2021

XII — 2017

X — 2015

EXPERIENCE

- SWIPEWIRE TECHNOLOGIES, Chennai**
- Frontend Developer — Jul 2025 – Present*
- Owned and developed scalable SaaS frontend features using React.js, TypeScript, and React Query, improving data retrieval performance by **50%**.
 - Designed and implemented high-performance UI animations using GSAP increasing user engagement by **40%**.
 - Implemented best practices in front-end development, improving code maintainability and scalability.
 - Diagnosed and resolved front-end issues, improving website performance and user experience.
 - Developed advanced SVG path animations and motion effects using GSAP for interactive UI experiences.
 - Built complex scroll-based and sequence animations, enhancing storytelling and visual engagement.
 - Led Agile sprint execution, performed code reviews, and collaborated closely with backend, QA, and product teams to ensure timely delivery via CI/CD pipelines.
- ARVI INFO SOLUTIONS LLP, Bengaluru, Karnataka**
- Software Engineer — Dec 2021 – Feb 2025*
- Designed and developed responsive web-based user interfaces using React.js, ensuring cross-browser and mobile compatibility.
 - Collaborated with product managers and engineering teams to deliver scalable front-end solutions aligned with business objectives.
 - Engaged with stakeholders for project updates and feedback, enhancing transparency and product usability.
 - Managed multiple high-priority projects simultaneously, meeting tight deadlines with efficient time management.
 - Wrote optimized SQL queries for data retrieval and reporting, improving database efficiency and reducing response time.
 - Optimized API performance by implementing debouncing, reducing redundant API calls by **30%**.
 - Researched and introduced modern front-end technologies, mentoring junior developers on industry standards.

CORE SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Redux Toolkit, React Query, Tailwind CSS, Material UI, HTML5, CSS3, GSAP, React Three Fiber

Backend: SQL, Firebase

Architecture & Performance: Frontend System Design, State Management, SSR/CSR, Web Performance Optimization, SEO, Responsive Design

Testing: Jest, React Testing Library, Unit & Integration Testing

DevOps & Tools: Git, GitHub, Bitbucket, Docker, CI/CD Pipelines, Postman, Jira

APIs & Others: REST APIs, Authentication (JWT/RBAC), Security Best Practices

PROJECTS

ZTLOYALTY (React.js)

- Engineered a role-based access control system, ensuring secure and structured staff permissions.
- Integrated Firebase push notifications to enable real-time order tracking and updates.
- Developed an intuitive room management interface, enhancing operational efficiency.
- Designed and implemented event management features with real-time pricing adjustments.
- Created interactive data visualizations and reports, improving booking and revenue insights.

SOCIETY WEBSITE (Next.js)

- Optimized API performance by implementing localStorage and js-cookie for efficient data caching.
- Integrated Firebase push notifications, ensuring timely updates and alerts for users.
- Enhanced SEO and page performance using getStaticProps for pre-rendering dynamic pages.
- Developed a seamless Shimmer UI, improving user experience with skeleton loading placeholders.
- Designed and implemented a robust error-handling mechanism with a fallback UI for better resilience.

JANAPRIYA WELLNESS (React.js)

- Built an optimized pagination and search system using debouncing for improved responsiveness.
- Integrated Zoom API to facilitate seamless client communication and virtual consultations.
- Designed and developed an analytics dashboard for tracking client weight and lifestyle patterns.
- Created an interactive community platform enabling admins to post multimedia content.
- Implemented manual and bulk contact import functionality via Excel uploads.
- Strengthened UX by implementing advanced client-side error handling and validation techniques.

LINKSTAR (Next.js)

- Developed a high-performance animation-driven website using GSAP with advanced sequence animations.
- Implemented horizontal scrolling cards with smooth text movement and scroll-triggered effects.
- Built complex SVG path animations to enhance visual storytelling and user engagement.
- Optimized animations for mobile devices using Swiper for smooth touch-based interactions.

MOOC - CERTIFICATES (Coursera)

- Web Design for Everybody: Basics of Web Development and Coding – University of Michigan
- Introduction to HTML5 – University of Michigan
- Introduction to CSS3 – University of Michigan
- Interactivity with JavaScript – University of Michigan
- Web Design for Everybody – University of Michigan
